# About MindAddict2026

We are honored to welcome you to **MindAddict 2026**, taking place on **23–24 September 2026** in **Lisbon, Portugal.** At a time when mental health and addiction challenges are reshaping societies worldwide, MindAddict 2026 brings together clinicians, researchers, policymakers, advocates, innovators, and individuals with lived experience to advance meaningful dialogue and transformative solutions.

Over two impactful days, Lisbon will become a global hub for collaboration — where science meets compassion, innovation meets policy, and voices from across disciplines unite to shape the future of mental health and addiction care.

Whether you are here to present groundbreaking research, explore innovative treatment models, influence policy, or connect with global leaders in the field — your participation strengthens this movement. We look forward to welcoming you to Lisbon for a forum that inspires action, drives progress, and builds a healthier future for all.

**MindAddict 2026 — Global Mental Health & Addiction Forum** is an international platform dedicated to advancing dialogue, research, policy, and practice in mental health and addiction.

Held in the vibrant city of Lisbon, Portugal, the forum convenes global experts and changemakers to address some of the most pressing challenges of our time — including substance use disorders, behavioral addictions, dual diagnosis, trauma, prevention strategies, digital health innovation, youth mental health, public health policy, and recovery models.

MindAddict 2026 is built on the belief that sustainable progress requires collaboration across disciplines and borders. By bringing together science, clinical expertise, community leadership, and lived experience, the forum aims to accelerate systemic change and improve outcomes worldwide.

Join us on 23–24 September 2026 as we work together to redefine how the world understands, prevents, and treats mental health and addiction.

## WHY CHOOSE US?

Why does a Lambda Research Group stand out from other scientific meetings? Our meetings attract an exclusive number of audience who have a narrow concentration within a specialized field. We create a platform for informal, workshop style forums delivering a more intense scientific experience unlike other larger style conferences.

## OUR STORY

We focus on bringing a much-needed level of efficiency and quality standards in the way we service our clients, thus building lasting partnerships-based quality, innovation, and commitment to abide by our deeply rooted core values.

## OUR VISION

We are a truly professional group of individuals, striving hard to maintain and improve the quality of execution of our services. Our people constituting our team are our key assets.

## OUR MISSION

Lambda Research Group strives to become internationally renowned for providing meetings of outstanding scientific quality, bringing together smaller interest groups to create informal and workshop style interactions, bridging a gap in the scientific conference community.
